STAFF PICKS

JULY 2024

Angelica's pick

A captivating story that explores the rise and fall of a fictional 1970s rock band named The Six, as told through the eyes of their lead singer, Daisy. A must-read for music fans!

"All I will say is that you show up for your friends on their hardest days. And you hold their hand through the roughest parts. Life is about who is holding your hand and, I think, whose hand you commit to holding." - Taylor Jenkins Reid

An electric, searing memoir by the original rebel girl and legendary front woman of Bikini Kill and Le Tigre.

"I would much rather be the 'obnoxious feminist girl' than be complicit in my own dehumanization" - Kathleen Hanna

Amy B's pick

This story is a sombre work of speculative fiction. It takes place in a world where things and memories of these things are disappearing: first hats, followed by fruit, birds, and photographs. For unknown reasons, a small portion of the population keeps their memories of these objects and live in fear of the Memory Police, who are committed to ensuring these things remain forgotten.

"Memories are a lot tougher than you might think. Just like the hearts that hold them." - Yoko Ogawa
